

Sustainability Summit

This CPD seminar entitles you to 1 formal CPD point. Please be aware you are required to manage your own CPD records. We will provide you with your participation certificate once you have attended the full seminar.

EVERYTHING ARCHITECTS NEED TO KNOW WHEN DESIGNING WITH TIMBER

- 1. What is mass timber?
- 2. What is glulam?
- 3. What is x-laminated timber?
- 4. Where is x-laminated timber used?
- 5. What is Australia's' tallest timber tower?

At the end of this panel, attendees will be able to:

- a) Identify how particular types of timber are used in architecture
- b) Understand how timber affects overall aesthetics, engineering and building sustainability
- c) Understand why some designs need timber and why others can not apply it
- d) Discuss how standards in buildings may help or hinder the use of timber in design
