

Sustainability Summit

The below answer sheet is for your own self-assessment. Please keep your completed questionnaires and answers on file for your record. Sustainability Summit will send you a Refuel certificate once your questionnaire has been submitted.

NCC CHANGES FOR 2022: WHY HAVE THEY NOT BEEN ADOPTED?

1. How are some ways you can comply with the NCC?
By meeting the relevant Performance Requirements, by complying with the prescriptive Deemed-to-Satisfy Provisions, by the development of a Performance Solution or a combination of both.
2. How do you measure performance?
By Energy Consumption Benchmarking and Management that relate to the energy efficiency requirements that are generally based on eight broadly defined climate regions, termed the NCC climate zones.
3. How does the NCC affect safety?
It sets the minimum required level for the safety, health, amenity, accessibility and sustainability of certain buildings.
4. How will the NCC change how we design buildings?
As a performance-based code, it sets the minimum required level for the safety, health, amenity, accessibility and sustainability of certain buildings. The Australian Building Codes Board, on behalf of the Australian Government and each State and Territory government, produces and maintains the National Construction Code.
