Sustainability Summit

1 FORMAL CPD POINT

This CPD seminar entitles you to 1 formal CPD point. Please be aware you are required to manage your own CPD records. We will provide you with your participation certificate once you have attended the full seminar.

CREATING SOCIAL SUSTAINABILITY VALUE CHAIN – DESIGNING PLACES THAT WORK WELL FOR PEOPLE AND THE ENVIRONMENT

1. What is one way that we could design places that work well for people and the environment?
2. In designing with connectivity, what are some of the planning principles planners need to remember in order to help create the social sustainability value chain?
3. How can urban renewal improve the social sustainability value chain?
4. How can community values be leveraged to help improve social sustainability?

At the end of this panel, attendees will be able to:

- Define the concept of 'Social sustainability' as it relates to the built environment.
- Explain the notion that 'social sustainability is as much about process as it is about outcome'.
- Outline the role that government play in helping to achieve social sustainability
- Outline the role that architects and designers play in helping to achieve social sustainability.

Competency Codes: Design: PC 3, PC 26, PC 28, PC 29
